CONSUMPTION

AND ALL THE VARIOUS DISEASES OF the Head, Throat and Chest, including

Eye, Ear and Heart,

—Successfully treated by—

M. Hilton Williams,

M. D., M. C. P. S. O.,

At 207 North Main st., opposite the Baker Block, Los Angeles, Cal.

PROPRIETOR OF THE DETROIT

Throat and Lung Institute,

—At Detroit, Michigan.—

Our California office is personally conducted by Dr. Williams, and is permanently established for the cure of

Catarrh, Throat Diseases, Bronchitis, Asthma, Consumption, Catarrhal Ophthalmia (sore eyes), Catarrhal Deafness.

Also diseases of the heart. Our system of practice consists in the most approved Medicated Inhalations, combined with proper constitutional treatment. Having devoted all our time, energy and skill for the past 18 years, to the treatment of the above diseases, we are enabled to offer the afflicted the most perfect remedies and appliances for the immediate cure of all those troublesome afflictions.

Catarrh.

Catarrh is often regarded by the patient as a cold in the head, and he often expresses his astonishment at his remarkable tendency to contract a fresh cold, indeed he declares that he is scarcely free from one cold before he has another, and yet he is always exceedingly careful; it is not a matter of surprise to him that the cold always seems to settle in the head and throat.

At times many of the symptoms of catarrh may seem to abate, and the patient is led to hope that the disease is about to wear off, but another stage of development soon sets in, and he learns to his horror that instead of recovering from the disease it is somewhat changed in its character, and has settled in the throat. A sense of weariness is often felt in reading, speaking, or singing; hoarseness is sometimes one; a sensation of dryness in the throat, or it appears that some foreign substance has fastened itself in the upper part of the throat; there becomes a sense of languor and fatigue, breath lessens upon a little exercise, a short, hacking cough, a peculiar sound in clearing the throat, a feeling as though there were not room enough in the chest to breathe freely, and these symptoms occur after the disease has made considerable progress. Then it is a time when consumption is about to begin its dreadful work. To this time the progress of the disease may have been slow and painless, but in expressing his sentiment hope that it will "wear off," declare that he has had the catarrh for years, and has it seemed to have grown worse, and they fear he will "bye-and-bye" recover; but his delusion is the grand error that has peopled our cemeteries with consumptive forms, as all forms of catarrh and finally in consumption.

The treatment of this disease requires care and perseverance to conduct it to a successful issue. The remedies must be carefully adapted to the phase of the disease in each case, and applied directly to the parts affected, which may be done by the patients themselves, wherever they may be, by the use of inhalers, suitable to their daily occupation; and we would hereby urge our eastern friends the necessity of direct medication in the treatment of these diseases, as it not to depend upon the beneficial effects of the ultimate action for their restoration to health, as in this way thousands find their way to the grave, who might have been cured with the aid of proper remedies.

Inhalations are applicable to all diseases of the respiratory organs, including catarrh, throat diseases, bronchitis, consumption, and thousands of cases can be cured by this mode of treatment when nothing else can reach them. Qualitative cure effected in every case if taken in time.

Consultation free, and prices within the reach of all.

Those who desire to consult me in regard to their cases had better call at the office for an examination, but if impossible to visit the office personally, may write for "List of Questions" and blank, both of which will be sent free of charge. Address

THE MORNING'S NEWS.

General Logan addressed the citizens of Peoria, Illinois, yesterday.

Governor Hendricks played the role of workingman in Chicago last night.

The assailant of Governor Cleveland was dismissed yesterday, the Governor declining to prosecute.

The report of Commander Schley, who commanded the Greely relief expedition, to the Secretary of the Navy, is printed this morning.

THE Los Angeles Democrats begin to act as if they were tired.

HEATHMAN did not distinguish himself on the "nostrum" last night.

"THE whole county ticket" should be the motto of every Republican voter in Los Angeles county when he goes to the polls. As to the National and Congressional tickets, they will be voted as a matter of course.

MORRISON'S "horizontal reduction" theory was put into practice in Ohio in a way quite unexpected to our friends the enemy. The Democratic majority of 1883 was hurriedly and violently reduced and converted into a Republican plurality "by a large majority," so to speak.

JUDGE WALLACE struggled vainly last night to stem the tide that is setting in towards protection to American industry and its great champion, James G. Blaine. It's no use, "Judge;" the free-trade - Bourbon - Cleveland - Southern-Confederacy-reactionary-English idea is dead—dead as salt hoss, and its "eyes is sot."

"A proper care for the workingmen is inseparably connected with the integrity of our institutions."—[Cleveland's Letter of Acceptance.

The above beautiful but hollow sentiment is "nailed to the masthead" of the San Francisco Examiner and other journalistic barges of the Democratic fleet. The Democratic idea of "a proper care for the workingmen" seems to be to relegate them to the mercy of foreign competition in manufactures and the low wages and miserable condition of life incident thereto.

THE preparations for the Republican meeting next Saturday night in Los Angeles are upon a most extensive scale, and we predict that it will be the grandest political demonstration ever seen south of San Francisco. The Grand Marshal's general order, enumerating the organizations that will take part, gives an idea of how large and lengthy the procession will be, and the spirit manifested by members and citizens is an augury of the big time coming.

THE deluded Democratic fellers who "wi' Wallace bled" last night, all for the sake of the lost cause of Democracy and free trade, can have the consciousness of knowing that they did not listen and labor for naught. John Bull looked on with approving smiles. He wants the United States to have free trade. It may not be a good thing for the United States, but it puts money in the purse of John Bull, and John Bull is looking out for his own purse, and not for that of Brother Jonathan.

A CHARGE IS WARNED.

Under the above heading the Examiner says: "There is no disputing the fact that the people want a change in the methods and policies of administering the Government." We differ from our Democratic contemporary. If the people desired a change they would make one. The result of the elections in Maine, Vermont and Ohio demonstrates that the people are determined that there shall be no change. Now the question arises, Why do the Democrats clamor for a change? It is because there would be money in it for them, as there are one hundred thousand Federal offices and several hundred thousand more of State and municipal paying places to be filled.

The Examiner utters this pitiful wail: "A change is also demanded by the Constitution, of which Republican writers and politicians often show startling ignorance. That instrument requires that a new President should be elected every fourth year. A fair interpretation of this would include methods and policies as well as men." *Ja-ra-as-lem!* We never before took that view of the meaning of the Constitution. Shades of Webster, the great expounder of that instrument! can this be so? Should the party, which when treason was rampant and good men trembled for the fate of the Republic, stood unflinching by the flag and whose members on many a battle field fought gallantly to protect it—should that party now surrender the government into the hands of the men who labored to destroy it?

No, no! The American people do not want a change. When they do want it they will make it. Restribution is the penalty that the Democratic party is now paying for its treacherous course in 1861, when one wing of the party took up arms against the Government, while a majority of the other wing were copperheads, and rejoiced at the success of the rebels, and grieved over rebel defeats. To-day the same men who were traitors to the Union have the unblushing audacity to flaunt in our faces the 153 electoral votes, and speak of a Solid South—a South made solid by fraud and organized murder. A Solid South should mean a Solid North, but there are doughfaces to-day at the North, as there were in slavery times, who aid and abet the men who by high-handed crime make the South solid.

Northern men, if we must have sectional lines in this campaign, surely you should stand by your own section. As the South is determined to make a sectional fight, so be it; but, as we said before, Northern men should stand by their own section of country—in doing which they will be standing by the Republic.

THE Evening Express announces, in a "scare" head over its telegrams, the following highly interesting and important information: "Old Zack Chandler Still Sound and True." We have no reason to doubt the statement, though the brave Michigander has been dead a long time; but we don't believe the Western Union Telegraph Company's lines extend to that "bourne whence no traveler returns," or that the Western Associated Press has an agent there. If we find out that it has, we shall demand from him specials for the TIMES, for we're bound to have everything that's going in the way of the latest news from foreign parts.

THE San Francisco Examiner is making itself very ridiculous by insisting that the result of the Ohio election was a great Democratic victory. The Republicans are satisfied to go right on sustaining such defeats as their alleged Ohio defeat until the end of the great battle. It is curious that a great paper like the Examiner does not have a more correct idea of the advantages of telling the truth. It cannot afford to permanently impair its standing as a newspaper for the sake of manufacturing a little bogus political capital in a single campaign.

SOME of the Prohibition howlers of Los Angeles—at least one—who are malignantly assailing Republicans who are and always have been truly temperate men and true friends of rational temperance, have, "many a time and oft," been carried home on shutters; and that within very recent years. Specifications can be produced if required.

LETTERS FROM THE PEOPLE.

(This is the TIMES-MIRROR'S Public Forum. Those who would stand thereon must first give the editor their real names and be responsible for their opinions and statements.)

Encourage Home Industry and Home Liars.

To the Editor of the Times—SIR: Reading the "special dispatches" to the Herald (which, by the way, are identical with those furnished by the Democratic National Committee to a hundred other Democratic organs throughout the country, without cost to the publishers, doubtless) there occurred to me, as being somewhat *apropos*, a "little story." A certain would-be correspondent wrote to a Boston newspaper asking if he should furnish details of the last sea serpent that had been recently observed in that vicinity. The editor replied: "No, thank you, we keep a regular liar of our own." The policy of the Herald in publishing these stereotyped fictions every day as news is really censurable. Being a Republican, I am a firm believer in the policy of "home protection," and I think that a paper which pretends to have for its object the building up of Southern California should offer more encouragement to native talent. There are numberless gifted beings in the Democratic party, right here in Los Angeles, who can lie with as great fluency and vim as Chairman Barnum and his secretaries, although possibly they lack the polish of experience, which can only be gained in a position upon the Democratic National Committee; yet they possess undoubted genius and should not be discouraged by wholesale importation of ready-made materials. The latest resources of our city and county will never be developed by such narrow-minded policy. Now let the Editor of the Herald, if he feels that he himself is not capable of filling the position, call in to his assistance one or more of the numerous "Colonels" or "Majahs, by Jove, sah!" that adorn the rank and file of this party of "Reform" and at once establish a bureau for the manufacture of fictions, so that he can inform Chairman Barnum that it is no longer necessary for him to supply the Herald with campaign literature, as he now keeps a liar of his own! Thus will the honor of Los Angeles be vindicated and native talent not "hush unseen," or inodorous (?) PROTECTIONIST.
Los Angeles, Oct. 22d.

Uncle Jake's Views.

To the Editor of the Times—SIR: Aunt Rachel, in your issue of 10th inst., makes some statements and asks a few questions that deserve consideration.

Contrasting the appeal for a female nurse in the hospital with the fact that many ladies "unblushingly submit" to treatment at the hands of male physicians for diseases incident to her sex, she remarks that it looks like "straining at a gnat and swallowing a camel." Well! It does look that way, but blushing is one of the lost arts, and ladies who wear modern bull dresses and bathing suits have not occasion to blush. This camel is a small and inoffensive bolus compared to the rest of the menagerie that are swallowed without a blush, or any visible straining.

As to the massage treatment, if the ladies like it, and they do, apparently, and pay the doctor well, why let them be slapped and pummeled to their hearts' content. If husbands and lovers are complaisant, Aunt Rachel ought not to object. There are "competent female physicians," it is true, but women are the last to admit their claims. No woman ever hopes to have the sympathy and aid of her sex if she steps outside the regular treadmill, unless indeed she achieves such success as to compel admiration. Yes, indeed, Aunt Rachel, the "heathen sisters" can teach lessons in modesty and some other virtues. The truth is, female modesty in this country and age of the world is a colossal fraud. It is a fine subject for the love-sick poet, but if Aunt Rachel expects to raise a fine crop of delicate sentiment on the existing soil of female modesty, she will need a large stock of fertilizer. Dr. O. W. Holmes remarked that the treatment of some cases of disease should have begun two hundred years back. "Prostitution," even in a "mild form," is a nasty word, and in behalf of the doctors, who at least are innocent, I protest against its use in this connection. UNCLE JACOB.

Mr. Vanderbilt Speaks.

One of the latest local sensations of New York is the avowal of the change of politics for cause of Mr. Vanderbilt, which will convey little comfort to the Free Traders. As Mr. Vanderbilt has been a conspicuous figure in New York financial circles, the public will take an interest in ascertaining his political sentiments. Said he:

I am not a politician, but have been a Democrat all my life, and stuck to the old ball when men of less courage but more wisdom fenced it for solid ground. I have just returned from Europe and am now a Republican, blacker than the blackest. I am an American above all things, and when I see the English and European press advocating the election of Cleveland in the interest of Free Trade, for the aggrandizement of selfish supporters of rotten monarchies, and, to their prospective detriment of American industry and prosperity, I made up my mind at once that I must change my political affiliation and support James G. Blaine, the champion of American protection for President. I intended to remain in Europe until just before election, but I became such an enthusiastic Republican that I couldn't stay away any longer, and returned to labor hard and long for the success of the Republican ticket. I intend to do what I can to show the meddling tricksters of the Old World that the people of this country are able to govern themselves, without foreign aid or advice.

It is for similar reason that so many Irish-American voters have broken away from the Democratic party.

Facts Boiled Down.

GAS was first introduced into the White House in 1848.

The dome of the United States Capitol is 307½ feet high.

There are 161 different counterfeits of national bank notes.

The new State Department has 150 rooms, and cost $5,000,000.

Back of the army is a possible American militia force of 8,000,000 men.

The Soldiers' Home grounds near Washington embrace eight hundred acres of land.

Accepting a Daughter's Correction.

New Orleans Times.

There's an old legend of the time when Bidwell was candidate for Governor. He had a servant at the door, who demanded cards from his visitors before they could be admitted. Cards do not grow in the rural districts, and even the playing cards are not of the best quality. But the story has nothing to do with cards. One day an old farmer and his family called. The servant answered the call. "Is the Governor's folks at home?" demanded the old farmer. "*Are*, papa, *are*, not is," said the Mills Seminary daughter. "Are the Governor in?" said the old man, and the young lady fainted.

"Vote as You Pray."

From the Chicago Evening Journal.

Those good people who want to "vote as they pray" should be very careful never to pray nor to vote for the wrong thing. Who ever in all this world has heard of anybody praying for the Democratic party? Let those who "vote as they pray" make sure that the effect of their votes won't help into power that wicked old party, as every vote cast for the third party Prohibition candidates at the coming election most certainly would.

Old Tecumseh.

General Sherman sent to a Brooklyn lecture bureau the following reply to a proposal that he should step up on the rostrum: "My regular charge for a 'lecture' is a million of dollars for outsiders; for my soldier comrades, once a year, nothing. For the former never has this fee been accepted; for the latter my book of engagements is full for the natural period of my life."

A Queer Hit at Cleveland.

From the Macon Telegraph (Dem.)]

Nobodies are sometimes convenient and small man frequently get into high places, but a fellow with peccadilloes larger than himself is a heavy weight to carry.

We do not believe in race prescription, but the telegraph and telephone companies have obstructed the streets to that extent that we are compelled to say: "The Poles must go!"

POLITICAL POINTS.

Forgery, fraud, falsehood, free trade, materialize into the Democratic party.

Western version: "You never miss the candidate until the crowd gets dry."

New York politicians estimate the city's total registration at 250,000 and the total vote at 235,000

With remarkable unanimity the Democratic party are encouraging the Prohibitionists and abusing poor Ben Butler.

"Reform" that would place the hangman and a lesher in the White House, is not the sort of reform the people are looking for.

"The grasshopper has, according to its size, 120 times the amount of kicking power of an average man." But the windypendent of 1884 is not an average man.

The Presidential tickets in the field now number six. Only one will be elected, but still, after the election the candidates who get left can be counted as sicks.

Summons.

IN THE SUPERIOR COURT OF THE STATE of California, in and for the County of Los Angeles.
Bryson-Henderson Lumber Co., plaintiff, vs. Walter Raymond and A. H. Glock, doing business under the firm name and style of Ray mond & Glock, defendants.
Action brought in the Superior Court of the State of California, in and for the County of Los Angeles, and the complaint filed in the County of Los Angeles, in the office of the Clerk of said Superior Court.
The People of the State of California send Greeting to Walter Raymond and A. H. Glock, defendants.
You are hereby required to appear in an action brought against you by the above-named plaintiffs, in the Superior Court of the State of California, in and for the County of Los Angeles, and to answer the complaint filed therein, within ten days (exclusive of the day of service,) after the service on you of this summons—if served within this county; or, if served elsewhere, within thirty days—or judgment by default will be taken against you according to the prayer of said complaint.
The said action is brought to obtain a judgment against you and each of you and against the firm of Raymond & Glock, for the sum of $9,941 50-100 for work, labor and materials sold, delivered and furnished at the request of defendants, and for interest from the 20th day of April, 1884, and for costs of suit. Reference is had to complaint for particulars.
And you are hereby notified that if you fail to appear and answer the said complaint as above required, the said plaintiff will cause your default to be entered and will apply to the Court for the relief demanded in the complaint.
Given under my hand and the Seal of the Superior Court of the State of California, in and for the County of Los Angeles, this 10th day of April, in the year of our Lord one thousand eight hundred and eighty four.

FINANCE AND TRADE.

Stocks and Bonds.

By Telegraph to The Times.

NEW YORK, October 22.—Governments higher for4½s. Stock market strong in early dealings; prices rose ¼ to 1⅜ per cent Union Pacific, St. Paul, Jersey Central and Northern Pacific were the strongest shares. Union Pacific sold up to 54⅜, Jersey to 46, St. Paul to 75¼ and Northern Pacific preferred to 45¾. After midday Vanderbilt's brokers were conspicuous sellers of trunk lines. The sales were said to be for account of the Vanderbilt party, although in some quarters it was stated that leading bears employed the Vanderbilt name for the purpose of creating the impression. The report that Lake Shore was to pass new bonds was again revived, and this had a very unfavorable impression on stocks.

Hughes' Russian Baths

Are located at No. 317 Main street, opposite Pico House. These baths consist of steam chambers, with a battery giving a current of Faradic electricity attached to each chamber, a shampoo and shower bath. Also, sulphur, borax and other medicated baths. There has been lately introduced into this sanitary institution the carbonated, galvanic baths, which are highly recommended in all chronic diseases, and as the galvanic is a constant current and free from the shocks of the Faradic current, it can be given in greater quantity, which is always needed in chronic rheumatism, sciatica, and especially in paralytic cases, to give action to the motor nerves to operate on the muscles. CLIMAX WIND MILL!

Manufactured by J. R. M'LLARD.

Will run in less wind, is much stronger built, is much less complicated, and hence never needs repairing; is much more powerful, is perfectly self-regulating, is made entirely by the very best Los Angeles Mechanics, and is fully 25 per cent. cheaper than any Eastern-made mill in this market and is warranted by a permanent citizen of the county, who is responsible for all his contracts. All we ask is for every one to make a personal investigation of one of these mills now running, and to lay aside all prejudice or preference for any mill, or any cheap talk by irresponsible agents who are selling Eastern mills, and whose residence among us is only temporary; the best, and last, not least, there is no better-looking mill made. The Chinese Theater.

The new Celestial temple of Thespis on Alameda street opened last night amid the blare of gongs, the sound of drums and squeaking of fiddles that moved the deepest emotions of the moon-eyed heart. The building will seat 800, and it was packed like a sardine box at $1 per head. The play was a thrilling plot from Confucius, entitled *Dan Sling Kee*, the lovely daughter of the Hoang Ho. The playing elicited frequent applause. There was no time between acts, and the men had no time to go out for cloves. A gallery runs entirely around the room, and there are three boxes on either side. To-night the great junk scene is to be rendered.

HON. W. T. WALLACE.

A Synopsis of His Address Last Evening.

A FEEBLE EFFORT FOR A FEEBLE CAUSE.

Blaine and the Republican Party Receive the Attention of the Whole Address—Hanham Displays His Lack of Ability for an Assemblyman.

Last evening Hon. William T. Wallace addressed a Democratic mass meeting in front of the old Episcopal church on Temple street. The meeting was preceded by a procession of the three uniformed Democratic clubs.

The meeting was called to order by Hon. Stephen M. White, who read the following list of officers:

President—J. D. Bicknell.
Secretary—W. S. Waters.
Vice-Pre idents—H. F. Gardiner, Orange; R. Egan, San Juan Capistrano; W. B. Wall, Tustin; Theo. Staley, Anaheim; J. Y. Anderson, Westminster; R. Guirado, Los Nietos; T. J. Kerns, Downey; George Deaver, Wilmington; P. C. Carrillo, Santa Monica; B. N. Loucke, Pomona; D. Richard, Azusa; I. W. Hellman, H. Johnston, C. W. Schroeder, D. V. Waldron, C. F. Harper, H. Hammel, T. E. Rowan, B. F. Coulter, W. Keene, W. G. Kerckhoff, Los Angeles.

Mr. Bicknell, the chairman, then introduced Hon. William T. Wallace, the speaker of the evening.

Judge Wallace began his speech by a personal attack on James G. Blaine. He acknowledged that Mr. Blaine has been so long before the public that his name is a household word. Eighteen times out of twenty Blaine had skulked in his tent when his monopoly masters needed his services; twice only he served them. There was never a political party which favored free trade. The Democratic party is opposed to the high protective tariff as advocated by the Republicans. The speaker read from the Democratic platform of 1840, stating that the Democratic party was opposed to the fostering of any class of business to the detriment of another.

In 1876 we elected Mr. Tilden President by a majority of a quarter of a million votes. [Applause.] The Democratic party never was a free trade party, and its principles have never been altered.

No one ever before heard of the Democratic party being charged with destroying something to drink. [Laughter.] The Democratic platform of 1840 contained a plank that favored a heavy tariff on wines.

The Republican party is the nursery of all the prohibitionists with which the world is cursed. Iowa, Maine and Kansas cause the loss of $40,000 annually to the wine-growing interests of California. These are all Republican States. [The speaker forgot to mention Georgia.—Ed.]

The Republican press and orators pass this tariff question by lightly. I have never seen one that did meet the question fairly.

The Democrats believe that the government should be supported by direct taxation. The Republicans argue that it is the rightful province of a government to legislate its burdens on one class and off another. In the days of Mr. Clay and Webb the party there was a party of a high protective tariff, but he only claimed a temporary tariff; he never claimed a permanent protective tariff. Clay applied it to an infant industry; the Republicans apply it to full-grown monopolies, which turn out over $5,000,000 worth of products annually. The present protective law, which is a Republican measure, is far ahead of what the Whigs ever dreamed. If the Democratic party is placed in power it will repeal the present law, and place in its stead a tariff for revenue. The present is a law aimed at the protection of the rich and ruin of the poor.

Diamonds are taxed 10 per cent. Coarse blankets are taxed 90 per cent. Diamonds are the apparel of the rich, and blankets are the clothing of the poor. He then read a long list of goods with the respective duties imposed upon them. Articles consumed by the laborer are taxed 300 to 400 per cent. more than the articles used by the rich man.

The speaker then made a sort of communistic appeal to the poor to vote the Democratic ticket. He then illustrated a high tariff as follows: A farmer exchanges a bushel of wheat for a hat worth 60 cents. After a while he wants another hat, and is informed that the hat is worth twice as much, because there was a tariff of 60 cents on each hat imported, and the farmer had to give $1.20, two bushels of wheat, for the hat. The farmer loses the extra 60 cents; he feels he is robbed of that amount.

Germany lives under a high protective law. Wages there amount to a mere existence. There they yoke women in the harness with beasts in the field. Between England and Germany there is no comparison. England imposes no tariff on any article she manufactures at home. I point you to the laborers and operatives of England as compared with Germany. We have had a protective tariff in America for 23 years. The American laborer does not get any larger wages than the English laborer. It is true that the American operative receives more money than the English operative. The American has to pay the tariff tax of 42 per cent. on what necessaries he buys. The Englishman can buy 25½ per cent. cheaper than the American. The Republicans have been tampering with the custom-houses. Claus Spreckles got control of the sugar trade of the Sandwich Islands. He gets his sugar free of duty, and the Government loses $1,250,000 annually, the tax on the sugar. Mr. Spreckles gets that money. The price of sugar never fell.

By a free-trade treaty Mexican fruit can be brought to he United States. The railway corporations, which have built into Mexico, have obtained this treaty. The tariff laws should fall the heaviest on the articles of luxury used by the rich. Originally the Government was sustained by direct taxation. This has been changed by universal consent to the taxes raised by the custom-house.

In 1883 California paid into the United States Treasury over $4,000,000, and there it is. There is now $400,000,000 in the United States Treasury, which the Democratic party proposes to turn into the channels of trade. Mr. Blaine proposes to divide it among the States, according to population. According to this, California would get back $1,500,000, and Maine, which paid $72,000 in 1883, would receive $1,300,000. That is Mr. Blaine's statesmanship.

Time was when America rivaled England on the high seas. Now she does not carry 16 per cent. of her own transportation, and pays foreign bottoms 130,000,000 for the same. The most of our ships of war could not withstand the recoil of their own guns.

Who has done anything for California? We have $100,000,000 acres of land, of which only 8,000,000 are under cultivation. The United States owns one-half of the total area of the State. Of this 15,000 000 acres are rich, if irrigated. A general system of irrigation is needed. Italy and Spain have done this. If Congress should do this for California she would sustain a population of 50,000,000.

In Jackson's time $301,000 was annually appropriated for the improvement of the rivers and harbors. Now it is $19,000,000 annually. Some of these rivers are not down on the maps. Colorado receives none of this fund than California. The present Congress appropriated funds to dig artesian wells on government lands in Colorado. Has anyone done anything for California. [Let Tully, Sumner, and other Democratic Congressmen answer.—Ed.]

Having divided all of his time to the Republican party, the judge turned to the youthful Grover, at the mention of whose name a solitary Democrat on the platform cheered. Tilden was once Governor of New York. [Applause.] We have found a second Tilden. We think he will be President.

A RISING STATESMAN RISES UP.

W. F. Heathman was then introduced. He referred to the Declaration of Independence, showing that he had read something of American history. The crowd not caring to go back to 1776, commenced to go home. The Republicans are making the rich richer and the poor poorer. The Republicans are a diseased body politic. The President of the United States should be pure. [So Maria Halpin thinks.—Ed.] Where is Roscoe Conkling and the long list of newspapers? Look at Cleveland! A man who is a fit representative to preside over 50,000,000 people. A man who has been tried [by Maria?—Ed.] and not found wanting. Blaine is a prevaricator. He wrote the Mulligan letters. The proof is he begged for their return and offered $10,000 to Fisher to burn them. He had a great bag of the Madigan circulars in his house. We don't know if Blaine is a prohibitionist. After the Ohio election he got scared, and appealed to the memories and passions of the late civil war. Well, the exsanguined rag is all the argument that the Republican party have to use. The Democratic sky is luminous with victory. The Republican party spent $500,000 to win, but the Democrats got the benefit. When New York and Indiana speak they will put the Democratic party in power for the next 50 or 100 years. He is opposed to sumptuary legislation. He then imagined himself in the campaign of 1880, and tried to drag up the same issues.

The crowd by this time had got down to about fifty persons, and Heathman gravely told them that as the hour was late he would stop.

The meeting closed without a cheer.

J. W. MACKAY.

The Bonanza King Interviewed Yesterday.

The west-bound passenger train, which arrived in Los Angeles yesterday at 12:20 p. m., had on board J. W. Mackay, W. S. Lyle and several other gentlemen who had been on a tour of inspection of the Quijotos mines.

The TIMES man waited till the gentleman had finished a hearty meal at the Depot Hotel, and was then introduced to Mr. Mackay by Mr. Lyle.

What is your opinion of the mines at Quijotos?

After a careful examination of them I must say that they are very encouraging. We are running these mines strictly on their merit, and it requires slow and judicious work. They are meritorious, however, and fully justify all we have expended upon them.

Are you erecting a mill?

No, we are not ready yet. The mountain is not yet prospected enough. We are putting in air compressors. There is ore enough in sight to run a large stamp mill for several years.

Will you increase your force?

Only slowly. The work will be continued right along without cessation. Over 2,500 feet of tunnels and drifts have been run. But Mr. Lyle can tell you all about that and a regular new bonanza in the Crocker. The citizens of Quijotos gave us a royal reception. I am very much pleased with Arizona.

What do you think of the chances of Blaine's election?

Why, I am a Republican, and of course they are good. I am glad to see the Irish going to vote for Blaine in such large numbers.

The reporter wanted to ask a few questions about the Bennett-Mackay cable and the postal telegraph system, but the crowd became too great to permit further conversation.

Mr. Lyle, President of the Crocker company, told the reporter that tunnel No. 1, after nine months of work, had cut the vein at a distance of 312 feet, and a depth of 600 feet below the croppings, and the assays are very fair. The north drift from the main Crocker tunnel has encountered a bonanza that goes over $9,000 per ton. How big this is has not been determined, but it is very gratifying.

As the cars moved off Mr. Lyle said: "When we do get ready to move we will make things hump in Arizona, the like of which they never saw."

Saturday's Republican Meeting.

The preparations for the great Republican rally to be held in this city Saturday night next give assurance that it will be the finest political demonstration ever seen. San Bernardino will be here some two hundred strong, and Riverside, Pasadena, San Gabriel and other towns will be well represented. It is quite probable that a special train will be run to the Santa Ana valley, bringing a large crowd from those settlements. The members of all the Republican clubs in Los Angeles should make a special effort to turn out in full force, as it will be one of the last great meetings of the campaign. All members of clubs should be at their headquarters by seven o'clock and procure their uniforms.

Congregational Social.

The ladies of the Congregational church gave an entertainment and social at the Park-street tent last night, which was well attended. Following is the programme: Song by the children, led by J. M. Davies; recitation, by Miss Schumacher; duet, "Life's Dream is O'er," by Mrs. Stanbury and Mrs. Gillette; bass solo, "Ehren on the Rhine," by Dr. Manning; duet, "In the Starlight," by Mrs. Stanbury and Mr. C. Holmes; recitation, "Waking Bells," by Miss Weston, and on encore gave "The Little Girl in the Big Hole;" duet, "Evening Hymn by the Virgin," by Mrs. Stanbury and Dr. Manning; solo, "Bide Awee," by Miss Weston; duet, "Love and the Fountain," by Mrs. Stanbury and B. C. Holmes. Refreshments followed and a general good time.

Crazy.

Jack Bolyn, formerly of Los Angeles, and a well-known character of Tucson, Jack has a wife in this city. He recently married a little servant girl from Pomona in the family of Dr. Von Bonhurst. For this heinous offence Jack was punished by the stern government of Arizona, and this probably affected his mind. "A man twice married is sufficiently punished."

That Joint Discussion.

The discussion between Messrs. Mages and Kinney will be opened to-night at San Gabriel and will close on Monday night, October 27th, at Pasadena. The meeting advertised for Col. H. H. Markham and the Hon. W. A. Cheney, at the latter place, of the same date, will not interfere with the discussion.

Mrs. Helena Froelich.

This lady, the estimable wife of Captain Froelich, of the police force, died at 2:30 a. m. yesterday, from the effects of the coal-oil explosion the day previous. She was 42 years old, and left five children. The funeral will take place at 9:30 a. m. to day.

The Grape Crop.

The wineries are paying from $18 to $22.50 per ton, according to quality. This does not seem to be any advance on former prices. However, at these figures a vineyard is profitable.

Fruit Shippers.

Porter & Bros. are shipping all kinds of fruit to Chicago at present. Yesterday a large installment of pomegranites were sent. The supply for the latter fruit is principally from San Gabriel.

The Weather.

Yesterday was a disagreeable day as far as weather was concerned. A regular "Santa Ana" blew off the desert, and everybody felt sultry and hot. At Santa Monica the mercury notched 100 degrees in the shade.

J. Hart, late director of the Cleveland Conservatory of Music, will receive pupils for instruction on violin, piano or harmony on Tuesdays and Fridays, at Bryson's Mall, from 10 a. m. to 6 p. m.
